NEO

Surface Mount Can Light

The NEO Aluminium Surface Mount Can Light is designed with a deep baffle for low glare output. Available in a black and white powder coated matt finish, it perfectly complements modern interiors. The large cylinder creates a sense of depth. Ideal for above workstations, kitchen island benches, hallways and where recessed downlights aren't practical.

Part of the NEO range, it is compatible with the NEO Plus, M10 and M14 LED Modules. Select from 6W-18W Downlights, Warm White or Cool White, 22°, 36° or 60° beam angle.

IP20
